Clinical and Forensic Experience

Clinical and forensic experience entails advanced training in assessment and treatment, to include emphasis in trauma-informed care, specifically related to victims of domestic violence, child sexual abuse, physical abuse and neglect, and treatment for suicidality. Additional training and experience entails treatment of adult sexual offenses and problem sexual behaviors in children, substance use disorders, treatment of mild to severe mental health disorders, and facilitating protective parenting classes. Relevant training and experience also includes working with and conducting comprehensive evaluations in areas around family systems and child development, high-conflict cases, parent-child contact problems, resist-refuse dynamics, child sexual abuse allegations, relocation, family violence, child abuse and neglect. APSAC certified in Child Forensic Interviewing and expert trained in Parenting Coordination and Court-Involved Therapy (i.e., Reunification/Reintegration Therapy).
